

Instructions for the oral presentation - TU 02 Infectiology

Virology 2024-2025

You will prepare a presentation of 15 minutes about one virus of your choice. This will be followed by 15 minutes of questions. It could be a specific virus encountered in your home country that you would like to share with us or any virus that interests you.

You will have to present:

- the classification
- the structure of the virus
- the cycle of multiplication
- the related pathologies and symptoms
- the epidemiology
- and the diagnosis

It is important you respect the time and we need to hear everyone.

The presentation will take place on the 19th of February 2025 at 9h30. You will be assessed and this will be your continuous monitoring mark for the virology part. Two juries will be held in parallel.

Trios	First and family names	Virus
Trio #1	Elsa KARAM Liana EL HAJJ Kinda CHAIB	HBV
